

Carson M. Lewis, M.D., Director

July 11, 1986

Dear Anthony:

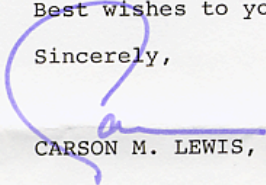

Thank you for your two extensive writings which you sent to me; one on the thesis and secondly, the one that I asked you about on the facial effect as clues and indicators to self. They were both very elaborate with extensive bibliographies and are very interesting. The one about the face and imagery is helpful to me.

I wish to talk with you sometime in the near future. Please keep me posted as to when you need to have your committee get together.

Thanks again for your help in this regard. To confirm the axiom, give the job to a busy person.

Best wishes to you.

Sincerely,

  
CARSON M. LEWIS, M.D.
